

**Duck Puddle Farm, Wayland, MA**

This house is situated on a horse farm in a rural setting west of Boston.

The project involved the complete renovation of an existing Greek Revival home with a new 2400 sq ft addition that included a family room, kitchen, a new entry and mudroom, and upstairs a new master bedroom, bath and dressing room.

To allow maximum views of the horse farm that surrounds the home, oversized windows and French doors were used and the family room was rotated 30 degrees on its axis. Built-ins and a cross-vaulted ceiling add to the formal elegance of the home.

**Builder** Kenneth Vona Construction

**Landscape Design** The Macdowell Company
