

**Twin Gables, Westport, MA**

A new summer house on the ocean in Southeastern Massachusetts.

The bedrooms and kitchen spaces are located in the twin gables, while the main two-story living area is located in the center of the house.

The simple forms are derived from the relatively modest houses in the seaside village and all but one of the 11 rooms captures the spectacular water views.

A freestanding two-car garage also serves as a two-bedroom guest house.
