

Two Chimneys, Concord, MA

A new 5000 sq ft single-family house located in an open field outside of Concord Center.

The floor plan allows for single level living with the master bedroom suite accessed through the library. The second floor contains three bedrooms, each with it's own bath, and ample space for additional bedrooms or recreational space. The single story massing and oversized windows attempt to scale down the overall size of the house.

Builder John Pierce
Landscape Contractor R.P. Marzilli
